

Tempostop Lever Operated Basin Tap Timed Control

Model no: 745450

This is an automatic shut-off lever operated basin tap. Shut-off delay 15 sec. and pre-set flow rate 4 l/min., adjustable. Body in chrome plated solid brass with flow straightener.

FUNCTION AND APPLICATIONS

- Opening by pushing the lever in any direction and will automatically shut-off without hand contact
- Use: recommended for children, disabled people and the elderly (smooth operating and easy grip)

PRODUCT ADVANTAGES

- WATER SAVING about 70%, due to automatic 15 sec. shut-off delay and 4 l/min. pre-set flow rate (pressure should be between 1 to 5 bar, ideally 3 bar)
- RELIABILITY: unmatched endurance (scale, corrosion and foolproof mechanism, and self-cleaning hydraulic delay case with calibrated groove)
- EASY MAINTENANCE: Interchangeable mechanism cartridge, accessible without dismantling the tap.

Advantages

- High resistance to vandalism, especially designed to comply with intensive use in public places.
- Reliable shock proof mechanism
- Reinforced fixing
- Vandal-proof device preventing the tap to be blocked "on" (optional AB safety)
- More than 60% water and energy savings. Limited flow-rate and automatic shut-off.
- Threefold coating, chrome plated finishing
- Comfort: smooth opening.
- No splashing due to the adjustable flow rate without dismantling the mechanism nor cutting off water (Delabie patented)
- Integrated filter prevents damage.
-

Body is chrome plated solid brass.

Resistance: More than 500,000 operations (NF/CSTB approval)

Self cleaning hydraulic delay device with calibrated groove.
