

## Inta Multi Directional Basin Mounted Tap (single)

Designed for use with our thermostatic mixing valves. When operated manually, the tap functions for a period of time and then closes automatically. This operation makes the tap ideal for use in unsupervised areas such as sports changing rooms and washrooms. It is also perfect for use as a water economy device. The simple operation of the push tap enables users with limited mobility to use the facility. They are available in wall and basin mounted versions.

- Simple operation
- Closes automatically
- Water economy
- Non concussive operation
- High polished chrome
- Brass body
- Aerated outlet
- Traditional and contemporary design
